

HAMPTON SPEED SKATING CLUB 2023-2024 ANNUAL REPORT

The Hampton Speed Skating Club would like to thank everyone for a successful 2023-2024 Skating Season. Our club saw the numbers of skaters increase over previous years primarily in our learn to skate program. As our season progressed so did many of our learn to skate kids as our coaches continue to grow groups 2 & 3.

Hampton Speed Skating practices were held on Monday and Thursday evenings with “drop in” skaters from other clubs on both evenings.

We held a successful meet in February this year. Meet numbers seem to have rebound and we were pleased with the level of participation. We would like to thank all of the other club coaches, parents and volunteers for making our Meet successful.

Our club were fortunate to have had early ice again this year and our Group 1 and 2 were able to start practices in September. Our regular season and learn to skate started on October 16th and finished during the last week of March.

The financial outlook for the Hampton Club is stable at this time. Hampton Speed Skating Club is able to meet its financial obligations.

Hampton plans to host its Annual Meet in February again this year and we look forward to seeing and meeting all the new and returning skaters, coaches and parents again in Hampton.

We would like to thank all the coaches, skaters, parents, and volunteers who work so hard during the season and wish everyone a successful skating Season in 2024-2025!!
